

DD/S&T-3328-74

3 SEP 1974

MEMORANDUM FOR: Executive Officer to the Deputy Director  
for Administration

SUBJECT: Interim Report on Analyst Training

REFERENCE: DD/M&S memorandum 74-3109, same subject.

1. We have accumulated a large number of wide ranging and disparate views regarding the subject report. It is therefore impossible in this time frame to give you a single coordinated DD/S&T position on each part of the study. However, I am forwarding all of our responses for whatever benefit you may derive from the reactions of our Offices.

2. In general, we can say that the report was well received, considering its wide reaching implications. At the same time, there was a general feeling that the proposed curriculum is tailored primarily to DDI needs and that certain types of unique technical training requirements would be neglected. Returns were about equal on furnishing analysts as instructors, production problems being what they are now days. There was not much support for the "Estimative Exercise" course, and a feeling that DD/S&T considerations had been excluded. On the positive side of a need for this course is the fact that broad gauge estimates require assimilation of technical and technological considerations; this has been a problem. Finally, the responses show that the Mind-Expanding Programs and the Seminars seem to enjoy the widest support.

Executive Officer  
Directorate of  
Science and Technology
